ABOUT ME

A highly motivated and quick-adapting UI designer with a sharp eye for detail and a heart for human-centered design. As a fresher, I thrive in creative spaces that challenge both logic and imagination. Skilled in crafting intuitive and visually compelling interfaces, I specialize in translating complex ideas into seamless digital experiences. With a growing passion for design systems, accessibility, and motion design, I'm constantly expanding my toolkit to stay ahead of trends. Driven by a desire to shape meaningful user journeys, I'm eager to join a collaborative team where design meets impact — and pixels meet purpose.

Skills

HTML /CSS , JavaScript , Python , React J.s , Figma,Sketch,Framer

Education

Secondary School , National Model Science School(Gongabu ,Kathmandu)	2076 (2020 A.D)
• GPA: 3.50 /SEE

Projects Work on

Assignment Management Web Platform

- Designed UI for Client, Writer, Customer Service, and Admin dashboards with side menu navigation and responsive layouts.
- Tools Used: Figma, Adobe XD
- Outcome: Improved user navigation and productivity through a clean, functional interface.

Writer Dashboard Interface

- Created the “Current Assignment” page with Open (Unassigned), My List, and All List sections for writers.
- Tools Used: Figma
- Outcome: Enhanced workflow efficiency with intuitive assignment management.

Thrift Clothing Website

- Designed a modern e-commerce interface for selling thrift clothing online.
- Tools Used: Figma, Adobe Photoshop
- Outcome: Increased product visibility and engagement with clear navigation and strong visuals.

E-Commerce Rental Website

- Developed wireframes and interface design for an online rental marketplace.
- Tools Used: Figma
- Outcome: Simplified product search and booking with a user-friendly rental process flow.

AI-Powered Hotel Booking System

- Designed a clean, modern booking interface with AI integration for personalized hotel recommendations.

- Tools Used: Figma
- Outcome: Improved booking speed and customer satisfaction through intuitive design.

Smart Bus Tracking App

- Created a mobile app interface to track buses in real-time with live location and ETA features.
- Tools Used: Figma
- Outcome: Reduced waiting times with a clear, map-based interface.

Portfolio Website (Minimal & Futuristic)

- Designed a personal portfolio with GSAP animations for smooth interactive effects.
- Tools Used: Figma
- Outcome: Built a strong personal brand identity with a visually striking, responsive design.

Event Management Dashboard (Concept)

- Created a web dashboard for managing events, ticket sales, and analytics.
- Tools Used: Figma, Miro
- Outcome: Provided a clean and organized interface for efficient event tracking and management.
